Candidate's Statement (reproduced exactly as submitted):

As I complete my first term serving as an Assembly Member District 5, Sterling/Funny River, I wish to thank all that have supported me in my efforts to improve upon the functionality of the Borough Government. It is with great pleasure and aspiration that I wish to serve a second term. I believe we can and should strive to provide services at the lowest cost possible. I have always desired a balanced budget and as it becomes more difficult to be awarded Federal grants, it will require us to evaluate what are needs are versus our wants in order to avoid higher property taxes. We are spending more than we acquire, and we need to live within our means. I do support less government and will continue to vote against efforts to increase costs of providing services. I feel I have served you well and have made a positive difference for the Kenai Peninsula Borough. I am one of very few that brings a business perspective to the process. I would greatly appreciate your continued support and vote on October 4th.

Respectfully, Charlie Pierce
