Candidate's Statement (reproduced exactly as submitted):

I am taking this opportunity to run for Council in order to serve the community.

I believe City Council Members should provide an atmosphere where local businesses and organizations can thrive and entrepreneurship is encouraged. As a Council Member, each policy and fiscal decision should be examined and pursued only if it will encourage sustainability for our Community. Moving forward Council should be using Seward's strengths and leveraging our assets. Fostering responsible economic growth and providing for a good standard of living in Seward will be my highest objective.

This is a pivotal time for Seward with a number of important economic development items moving forward, such as: Costal Villages Region Fund's plans to relocate to Seward and the development of the Seward Marine Industrial Center (SMIC); AVTEC's growth as they develop additional courses of study; Seward pursuing recommendations from the 2010 Economic Development study and the follow up recommendations; developing solutions to fortify our local health care system; harbor development plans; Seward Electric and Water Utility concerns; and managing the Library Museum project. I would like to represent the voters' wishes with my management skills to make certain these items are completed to benefit Seward.
