

RESOLUTION ATT: 173-160-54 Aug 1, 04

CLASSIFICATION and Borough, face sale
→ 2004-77 and 2004-25
ORDI. MAKE

CLERK:

-907-242-8615

Mayer Bagley
Assembly Members
and the public

My name is Doris Cabana of Box
607 Homer, AK. 99603. My home is right in
front of parcel 173-160-54 Diamond Ridge
NW 1/4 N 1/4, Section 15, T 6 S. R 14 W, S. M. AK.
40 acres

and you have it Resettlement and Commercial
for the 50% canal behind Moore
Construction off the Sterling Highway. We've
had our property since 1973 we're next
to him across from the Unversary-Old
Ranger Station.

I'm asking if you'd please this piece
and retain it for the Borough, use it
for preservation and recreation except
for the front canal towards Junction Point,
its mostly wet land and bogs. Moores
are no problems in this area with their
business, its just some noise with the trucks
but the other way & behind next to the Homer site
its been asphalt plants and reamedition and
now next to this piece a cement plant and probably
another asphalt plant and dump. That 40 acre
piece was also mostly wetland & streams into
Diamond Creek that shouldnt have been drained
and filled I dont believe. Its nothing but a

2004-54 — 173-160-54
AND. 2004-77

Health problem for my self & others.
We're kind of in a bowl here with Diamond
Ridge running behind and before people up
there I talked to & heard, had it in the
air for their health also.

About five weeks ago my husband looked
back that way and said there is a fire
back there and I said no, smel the
air its just comet in the air.

If this piece was pulled it would
solve the problem. Also I believe, KESA,
the Ketchikan Fire Service was also
looking at this for a future station
Thank you.

Sincerely,
Doris + Roy Cabana
