Soldotna, Alaska 99669

Dear Madam,

My name is Aliro Silva. I own two lots in Moose Range Meadows South Ivory Addition. I am writing in response to the recent decision to bring gas lines into our subdivision. I agree with our neighbors that bringing the line is needed. At the same time, I am in disagreement with the fact that residents have to pay for the cost of providing the main line, in addition to later having to pay for the line directly to each lot.

I understand that in Alaska things have been done in this way for many years, but in these times of record profit for oil and gas companies, it is time that companies stop profiting in every way while we private citizens pay for their investment. Alaska is not the state it was 40 or fifty years ago and things need to change. Therefore, I am expressing my disagreement with residents paying for the installation of the gas line.

Yours sincerely,

Aliro A. Silva
