**Subject:** Ordinance 2008-26 Government Lot 30 West of Kachemak Drive in Homer

Dear Mayor Williams, Marcus Mueller and John Miller,

We want to inform the Kenai Peninsula Borough Planning Committee that we neighbors of Government Lot 30W of Kachemak Drive parcel # 17908050 want to express concern and a desire on our parts that in the sale contract of this property to the City of Homer there be included language that expressly protects the wetlands of the subject property from development of any kind that would adversely impact the hydrology of the subject property and adjacent properties as there is a very considerable concern in this immediate area about effects of ground water on flooding and beach front erosion adjacent to the properties on either side and also on the East side of Kachemak Drive.

Sincerely yours,  
Annette Koth - Government Lot 30 East of Kachemak Drive Anne Wieland - Government Lot 32W Kachemak Drive and Government Lot 32 E
