**Subject:** Ord 2010-28 manager plan

I urge you to defeat introduction of Ordinance 2010-28 providing a vote on the question of adopting a manager plan of government. This is an issue that would be better advanced by a petition of concerned citizens rather than by the assembly. It is interesting that the MatSu Borough at this time is considering moving just the opposite directionl. The grass is always greener. . . . Our borough government is well organized and responsive to the citizens the way it is now set up. Let's get on with business.
