ACCOMMODATE THE NEW MRI**

- WHEREAS,** Central Peninsula General Hospital has scheduled the acquisition and installation of a new Magnetic Resonance Imaging Machine (MRI); and
- WHEREAS,** modifications to the building to accommodate the installation of the new MRI will require removal of the roof cap to take out the old MRI, verification of the integrity of the radio frequency shielding and shielding upgrade, if necessary, replacement of the roof cap, and installation of a water chiller and uninterruptible power supply (UPS) system; and
- WHEREAS,** Siemen's contractor has determined that the existing shielding does not comply with the necessary shield rating and will require that all interior surfaces (ceiling, walls, and floor) be removed to repair the damaged shield, followed with installation of new ceiling, walls, and flooring; and
- WHEREAS,** the chilling unit for the new MRI will require a fully enclosed space as well as fire alarm system, thermostat controlled ventilation, lighting and emergency backup power; and

- WHEREAS,** Central Kenai Peninsula Hospital Service Area has the additional funds to cover this expenditure through CPGH, Inc. Account No. 01.1220.0200; and
- WHEREAS,** Central Kenai Peninsula Hospital Service Area has included this project in its FY 2005 capital equipment/projects budget.
