Subject: Resolution 2005-044

I think it would be better served to pull this resolution and put this issue to a vote to see how much real support there is for it to go forward. This is NOT the right location for this bridge. From what I hear, it has been hashed back and forth and if not for some realtors who are pushing the agenda after losing numerous tries, this would not be an issue.

Let the people decide

Subject: Sterling-Funny River Bridge

Mayor Bagley and Kenai Borough Assembly Members,  
We would like to go on record as opposed to Resolution 2005-004, which is the proposed construction of a bridge across the Kenai River connecting Scout Lake Road with Rabbit Run. The reasons are; unnecessary at this time, the noise and traffic increase in a residential area, the unknown cost of such a project, the detrimental impact on the Kenai River and surrounding wetlands
